

President Smt. Droupadi Murmu meets President H.E. Anura Kumara Disanayaka at Rashtrapati Bhavan, 17 December 2024

Prime Minister Shri Narendra Modi meets President H.E. Anura Kumara Disanayaka in Sri Lanka, 05 April 2025

“ Relations between India and Sri Lanka are based on mutual trust and goodwill. We will continue to work together to fulfill the hopes and aspirations of our people.

Prime Minister Shri Narendra Modi at Joint Press Statement with President of Sri Lanka, 05 April 2025

“ India and Sri Lanka are not merely two countries on a map. It is essential to recognize that they are two nations deeply connected by history, strongly united by trade, and bound by friendship

President Anura Kumara Disanayaka at Joint Press Statement with Prime Minister of India, 05 April 2025

Message from High Commissioner of India

H. E. Santosh Jha

My dear brothers and sisters from Sri Lanka, Namaskar, Ayubowan, Vanakkam!

On this 79th Independence Day of India, I extend my warm greetings to all of you. Today, a resilient and rising India celebrates its independence — not only as a democracy that upholds the aspirations of its people but also as a nation whose rise today is measurable and unstoppable; a nation that is not only lifting millions out of poverty, but also sending Missions to moon.

India is now the world's fourth-largest economy with a GDP exceeding USD 4 trillion, growing at an annual rate of 6.2% (IMF, 2025). This growth is not limited to statistics — it reflects rising incomes, expanding opportunities, and the strengthening of economic foundations across the country. India is projected to become the third-largest economy by 2028, overtaking Germany.

What makes this growth particularly significant is its inclusive nature. According to World Bank data, extreme poverty in India has fallen sharply — from 27.1% in 2011-12 to just 5.3% in 2022-23. At the same time, inequality has declined. India now ranks as the fourth most equal country globally on the Gini Index, with a score of 25.5, placing it in the “moderately low” inequality category.

These outcomes are the result of bold policy reforms and systemic transformation. Key initiatives like the Goods and Services Tax (GST) and the Unified Payments Interface (UPI) have modernised India's economy. Social protection schemes such as Ayushman Bharat and Jan Dhan Yojana have extended health and financial

inclusion to millions, ensuring that growth reaches the most vulnerable.

With 65% of the population under the age of 33, India is also benefitting from a dynamic demographic dividend that supports its ambitions to become a developed nation — Viksit Bharat — by 2047, the centenary of our independence.

India's growth story is also rooted in sustainability. India now generates 50% of its installed electricity capacity from non-fossil fuel sources — achieving this milestone five years ahead of the target set under its Nationally Determined Contributions under the Paris Agreement. For India, the clean energy transition is not an alternative to growth but a parallel pathway that strengthens it.

It is in this context that India's 79th Independence Day holds relevance for Sri Lanka, which also started its independent journey alongside India. Both our nations have walked together on the path of unwavering commitment to democracy with a focus on providing better living conditions for our peoples. India and Sri Lanka share deep and historic bonds, which predates our shared colonial history. It is these bonds that truly make us ‘Civilisational Twins’. It is from this deep rooted kinship that India-Sri Lanka relations draw its strength and vibrancy. As its closest maritime neighbour, Sri Lanka has a special place in India's ‘Neighbourhood First’ policy as well as its ‘MAHASAGAR Vision’.

The priority that India and Sri Lanka attach to each other is reflected in the recent visits by The President of Sri Lanka to Delhi and Prime Minister of India to Sri Lanka. H.E. President Anura Kumara Disanayaka chose Delhi for

his first visit abroad and welcomed Prime Minister Modi in the first State Visit to Sri Lanka since assuming office. As mentioned by Prime Minister Modi during his recent visit to Colombo in April 2025,

“India is proud to have fulfilled its duties as a true friendly neighbor to Sri Lanka. Whether it was the terrorist attack of 2019, the COVID pandemic, or the recent economic crisis, we have stood firmly with the people of Sri Lanka during every difficulty.”

Relations between India and Sri Lanka are based on mutual trust and goodwill. Over the past six months, we have been working closely with the Government of Sri Lanka on various facets of our bilateral relations, promoting bilateral trade and investment, collaboration on technical assistance and training, improving people-to-people relations, promoting mutually beneficial connectivity projects, while also continuing grant based assistance in areas as identified with the Government of Sri Lanka. India is championing a definitive shift from a credit based approach, to an investment led partnership with Sri Lanka on various fronts. Ensuring economic development to the people of Sri Lanka, without burdening the country with debt is at the core of this approach.

India is Sri Lanka's largest trading partner, its top source of foreign investment, and the largest contributor of tourists. Our development partnership is broad-based and people-focused. The projects inaugurated and announced during the visit of Prime Minister Modi to Sri Lanka in April this year- the Temperature controlled warehouse in Dambulla, Railway projects, Sampur

Power project, Solar Rooftop systems for religious places, assistance for Sacred City Complex at Anuradhapura, for Thirukoneswaram Temple and for Sita Eliya Temple underscore this approach.

India continues to work towards people-centric development projects through projects related to Housing, Suwaseriya Ambulance Service, Jaffna Thiruvalluvar Cultural Centre in Jaffna, Sri Lanka Unique Digital Identity Project, capacity building initiatives etc. to name a few. These projects align with the priorities of the Government of Sri Lanka and are aimed at improving lives directly and meaningfully.

India and Sri Lanka are deeply connected — not just by geography, but by shared aspirations and a common future. Our destinies are intertwined. As India rises, we are committed to ensuring that our growth is shared with our neighbourhood — especially Sri Lanka — through partnerships built on trust, respect, and mutual benefit. India advocates for a strong voice for the Global South, including for Sri Lanka, connecting its interests with our own priorities.

On this Independence Day, let us renew our commitment to a stronger India-Sri Lanka partnership and to a future of shared peace, progress, and prosperity.

Jai Hind.
Dhanyavad. Sthuthi. Nandri.

Celebrating

79th

Independence Day of India

List of Outcomes: State Visit of Prime Minister Shri Narendra Modi to Sri Lanka, 4-6 April 2025

UPI now powers around 85% of all digital transactions in India and nearly 50% of all real-time digital payments across the world.

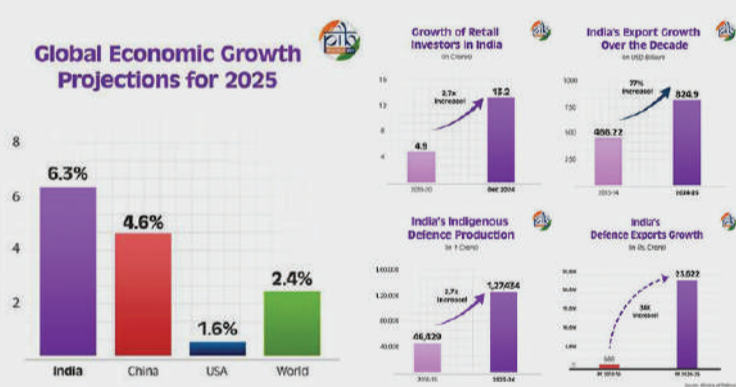

Sacred Buddhist Relics from India Return After 127 Years

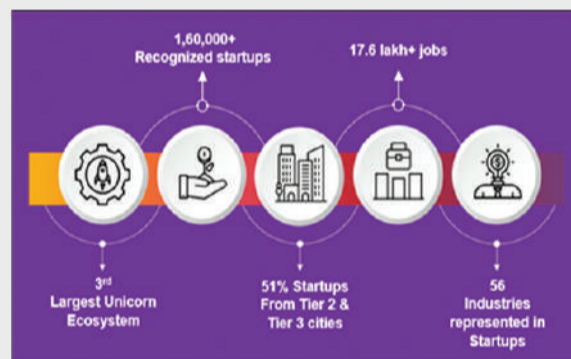

"A joyous day for our cultural heritage"
Prime Minister Narendra Modi

In an event that stirred hearts across the global Buddhist community, India welcomed home the sacred Piprahwa relics—one of the most spiritually and archaeologically significant treasures ever discovered. Repatriated after 127 years, these relics represent not just fragments of the past, but a powerful symbol of India's enduring cultural legacy. The journey of these relics, taken during colonial rule, came full circle in July 2025, as the Ministry of Culture, Government of India in collaboration with Godrej Industries Group, orchestrated their return.

- New global deals with Saudi Arabia, Nepal, Bhutan & Sri Lanka for long-term supply

World Recognition for Indian Heritage

Maratha Military Landscapes in India inscribed in the UNESCO World Heritage list

The property includes twelve major fortifications, mostly in Maharashtra State, with one in Tamil Nadu. These forts, such as Raigad, Shivneri, and Sinhudurg, were built, adapted, or expanded by the Marathas between the late 17th and early 19th centuries. Strategically located on coastal and mountainous terrain, they formed a complex defence system supporting Maratha military dominance, trade protection, and territorial control. This network played a key role in the Marathas' rise as a major political and military force.
